TECHNOLOGY · CREATIVE MEDIA · DIGITAL OPERATIONS

Hubballi, Karnataka | +91 80501 95276 | prajwal08pawar.work@gmail.com | linkedin.com/in/prajwal-pawar-94951a289

PROFILE

First-year B.Sc. MECS student with hands-on experience in frontend web development, QA exposure at a Singapore enterprise, and professional media production for high-visibility brand events. Built a live digital judging system for a college technical festival, explored version control and cybersecurity, and led visual branding across 15+ institutional campaigns. Seeking internships in software development, digital media, or UI/UX design.

EXPERIENCE

Digital Media & Brand Operations Associate

Family Media Agency — Hubballi, Karnataka

Ongoing

- Led media coverage for PVR INOX Hubballi inauguration at Inorbit Mall — managing photography and videography for a high-visibility commercial launch.
- Delivered branded visual content for 5+ clients (Radiant Vista, Royal Ritz, Hoysala Hotel); edited video content for KBDESIGN & Marketing and WeddingCardsHubballi.
- Collaborated with regional influencers on content campaigns; managed client servicing, shoot logistics, and post-production workflows.

Software Testing Trainee

Airworks Enterprise Pte Ltd — Singapore

Jul 2024

- Gained structured exposure to SDLC, test-case design, application validation, and defect documentation in a professional QA environment.
- Observed QA-to-development collaboration workflows within a globally distributed software team.

Design & Branding Lead — NSS / College Events

KLE Society's P.C. Jabin Science College — Hubballi

Sep 2025 – Present

- Created 15+ branded assets (posters, banners, digital creatives) for NSS campaigns, maintaining visual consistency throughout.
- Managed official college Instagram content and coordinated multi-team publicity for NSS events and institutional drives.

PROJECTS

Electronova — Event Portal & Digital Judging System

HTML · CSS · JavaScript

2025–26

- Built a frontend event portal and digital judging interface for ELECTRONOVA 2K26 — replacing all paper-based scoring for 100+ competition entries with real-time auto-calculation.

Mini Version Control System

Python · File I/O · Data Structures

- Implemented file tracking, version snapshots, and change management inspired by Git; reinforced practical knowledge of data structures and modular software design.

Cybersecurity & Linux Self-Study

Linux CLI · Networking · Ethical Hacking · AI Security Tools

- Independently explored Linux, ethical hacking, and AI-assisted security tools; presented findings at national-level technical events.

LEADERSHIP & ACTIVITIES

- Shortlisted for Student Council — recognized for leadership potential within the college community.
- Active participant in national-level technical conferences, tech quizzes, and cybersecurity presentations.
- Contributed to NSS event planning, publicity, and on-ground operational support for community service programs.
